

## **Acknowledgments**

We received useful inputs from too many individuals to enumerate here on different occasions during the development of Homegrown Vision. Here we want to recognize quite a few and apologize for any inadvertent omissions.

Drs. Bekele Shiferaw, Abebe Menkir, Tesema Chekol, Brhane Gebrekidan, the late Seme Debela, Getachew Belay, and Mulugetta Mekuria were heavily involved in shaping Homegrown Vision, starting from January 2014, when the first concept note was drafted and shared. We could not have been where we are today without their continued support in providing critical reviews, guidance, and perspectives. Prof. Sebsebe Demissew, Prof. Endashaw Bekele, and Dr. Solomon Bekure supplied very useful comments and encouragement on the more recent parts of the concept note.

We are very grateful to H. E. Ato Oumer Hussein, Minister of Agriculture (MOA), for giving us the audience on more than half a dozen occasions to listen to our ideas and challenge us to come up with actionable recommendations tangible to Ethiopian agriculture. H. E. Prof Afework Kassu, State Minister of the Ministry of Science and Higher Education, provided stewardship and encouragement by personally participating in our public address at the Ethiopian Academy of Science forum and during the launching of Science Week of MOSHE for 2020. We also acknowledge the support of Dr Eyasu Abraha, former Minister of Agriculture, Prof Fekadu Beyene (former State Minister for Livestock Sector of MOA), and Mr. Sani Redi (State Minister, MOA).

Meleket Abate, Heran Abate, and Hamara Abate worked diligently in forming ideas during the many iterations of the concept note and development of the website. Heran gave her precious time and expertise to give final touches on the content and form of the logo and the website. She also provided the original picture for the logo. We are grateful to Meleket for the generous financial support for covering part of the website development and maintenance fees.

Finally, we are very grateful to the management and staff of TimeLine Solutions Plc for their diligent work with the website development. Ato Abrham Kassa very patiently organized everything on the website. We also would like to thank Kirubel, Abdi, Mintamer and Noah of the same organization for their continued support during the website development.
